POW FINDS PAPERS A WELCOME SIGHT ON RETURN TO U. S.

(Note: Following was written by Cpl. Robert H. Maxey, of Santa Rosa, Cal., after his release from a prison camp in North Korea).

"The newspapers we have in this country are one thing we can show the peoples of the Communist nations as an example of what a life of freedom is like.

"While I was a prisoner of the Communist Chinese, we were given the Peoples World of San Francisco and the New York and London Daily Worker. It took some analysis to arrive at the truth.

"For example, in reading reports of battle casualties in Korea we found that if we switched the announced figures for Communist casualties and U. N. casualties, we could get a fair idea of what was going on.

"These papers had no real news about the U. S., just a lot of stories about lynchings and race riots. And no comics. The Chinese said such things were decadent.

"They told us the U. S. Press was a tool of Wall St.

"But we showed them that America was the only country where the press could call the President a stinker and get away with it.

"They wouldn't believe us. They said we were blind to the facts.

"I don't read our papers just to find out what happened today. I like to know what is developing in political affairs, both here and in other countries, so that when something happens on the front pages, under big headlines, I'll know what it's all about.

"I like to read about home town happenings, but I think our local papers could give a better presentation of world events that most people don't know about—events that really affect them.

"If you read American newspapers carefully, you can know the truth about what is going on in the world. And that affects all of us."

Flower Show In Lynchburg

"Lynchburg's Our Town" will be the theme of the fall flower show which the Lynchburg Council of Garden Clubs will stage at City Stadium September 30 and October 1 in connection with the 14-county Lynchburg Farm Show.

Mrs. Claude Hoskins, chairman for the Garden Council event, has urged all visitors to the Farm Show to stop by the special tent housing the flower exhibits during their trip to Lynchburg.

Several hundred dollars worth of prizes for the first place winners in each of the classes have been donated by Lynchburg merchants, in addition to the regular trophies for sweepstakes, tri-color and club winners.

All classes except the section for junior exhibits are open only to the members of the Lynchburg Council of Garden Clubs. Children may enter arrangements and compositions in the special junior section regardless of whether a parent is affiliated with a member club of the council. Mrs. Lloyd McNeill, junior chairman, has written school officials in the Lynchburg area, calling on them to urge pupils to take advantage of this section to begin exhibiting.

X-rays were first discovered in 1895 by Wilhelm Konrad Rotentgen, a German physicist.

The Monroe Dictrine was published in 1823.

Slogan and motto of the state of Indiana is "Crossroad of America."

Missouri and Tennessee each are bordered by eight other states.

The Mississippi River is known as the "Father of Waters."
